

2025 Pricing Update

POGOH is updating its pricing to reflect the operational demands of growing ridership while maintaining use of e-assist bikes at no extra per-trip cost for those who use it the most.

Unlike many other cities in the US, POGOH operates a predominantly e-assist bike fleet. While we still offer the classic pedal bikes, e-assist bikes are chosen for more than 85% of rides in Pittsburgh. In January 2025 alone, more than 13,000 rides were taken on e-assist bikes out of the 15,000 total rides for the month. Pittsburgh loves their e-bikes!

We have not made any changes to the Mobility Justice Membership to keep POGOH most affordable for those who are unable to use POGOH at the standard pricing, and for veterans and active duty military. While POGOH is retiring the Flex Pass, we're introducing a new Monthly Membership and reducing overage fees for all Members. We know that changes are difficult, but with these updates we can continue to make POGOH a reliable and convenient option for Pittsburgh.
